EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Muczynski on June 26, 2009.

The application has been amended as follows:

Claim 62, line 10, change "99.0:0.1" to -- 99.9:0.1 -- .

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach a ceramic or dental material with a bimodal grain size distribution where the two phases with different average grain sizes are made up of the same oxide selected from ZrO_2 , HfO_2 , Al_2O_3 and TiO_2 . For example if the first phase is ZrO_2 the second phase is also ZrO_2 . The claims have been amended to exclude the materials of Nawa et al '036 and EP 435677 which require two separate oxides, in particular a combination of Al_2O_3 and ZrO_2 . Although the two phases have the same end point for the grain size (250nm) the claims require a bimodal structure therefor if the first phase has an average size of 250nm, the second phase would be required to have an average grain size that is other than 250nm.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl E. Group whose telephone number is 571-272-1368. The examiner can normally be reached on M-F (6:30-4:00) First Friday Off.
